Upcoming Highlight – Department of Biology Town Hall

We want to hear from you! This Town Hall will be an opportunity to share your thoughts and feedback on the Biology Undergraduate program with the Director of Undergraduate Studies.

- Late October - Early November, Date TBA

Note from the Advisors

We hope you have been having a great semester so far. It's already time to think about registration for the next term! Appointments fill up quickly, so schedule yours soon! You can schedule an advising appointment via the Student Appointment Scheduler (SAS) in One.IU with any of the four advisors:

Zachary Vaughn (zbvaughn)
Jane Pilgrim (jpilgrim)
Gabriella Graziano (gmgrazia)
Libby Tilghman (etilghma)

Registration begins October 24th. **Your enrollment date will be posted on the front page of your Student Center.** If you click on "details" you will be able to see the specific time you will have access to registration. You are able to enroll at that point or any time thereafter.

If your enrollment date falls before your scheduled advising appointment, please still enroll for the spring 2020 semester using your Academic Advisement Report and your iGPS Degree Map. Then, when you meet with an advisor, we can help you make any necessary changes to your spring schedule. If you have an advising question that can be answered via email, please send us a message at bioadv@iu.edu. For technical registration issues, consult directly with Student Central: scu@indiana.edu or call 812-855-6500.

We look forward to meeting with you!

Your advisors,
Libby, Gabby, Jane, and Zach
